Front-end (Angular)

OBJECTIVE

To be a professional Front-end developer, do strengthening my education in computer science by getting training from great trainers. Add to that my curious mind about this field, which transferred me to a multi-tasker to improve my experience on the technical side. And this journey leads my mind to creative thinking. All of these advantages help me to trust in my steps as an experienced front-end developer and that is definitely what I aim for.

EDUCATION

Faculty Of Engineering	University of Kafrelsheikh	2021– 2016

Front-end Angular	Route Academy	December 2022 – April 2023

- Route is an Egyptian IT-Training Center founded in 2012
- https://www.facebook.com/Routelearning
